Post lab Question (PQ) for lab #1:

Estimate the Olympic swimming pool problem:

An Olympic swimming pool is roughly 50.01m long and 31.45m wide.

How long will it take to fill such a pool with an ordinary garden hose?

Hint:

You need to make a reasonable estimate for the depth of the pool as you did in the lab for the IAs height and explain how you came up with the estimate. Estimate the flow rate for the garden hose in the same way. Do the necessary calculations and explain your result.

Postlabs: Post lab Question (PQ) and IQ4 and IT4 are due by one week.

This post lab submission is due by one week at midnight after the lab session:

i.e. if your upcoming lab is on Thursday, October 14 at 2:30pm; your post lab must be submitted by Thursday, October 21 at midnight.

You should submit an electronic version of the post-lab question through the Dropbox of MyLS, Lab1 folder.

LATE SUBMISSION:

Deduction for late submission:

----> One day late submission results in a 20% deduction. For example, you are 1 day late and get a score of 80 out of 100. After deducting 20% your updated score is 64 out of 100.

----> 2 days late submission results in 40% deduction. For example, you are 2 days late and get a score of 60 out of 100. After deducting 40% your updated score is 36 out of 100.

----> 3 days late submission results in 60% deduction. For example, you are 2 days late and get a score of 40 out of 100. After deducting 60% your updated score is 16 out of 100.

LAB SYLLABUS

The lab syllabus can be downloaded from: PC 141 lab syllabus

Microsoft or Google Documents can be also used in converting .doc files into .pdf

Lab Instructor Assistance (IA):

Shunit Waisenberg: wais0003@mylaurier.ca

Rita Elraheb: elra9071@mylaurier.ca

Hello Students,

Welcome to the laboratory and tutorial portions of PC141 – Mechanics for Life Sciences. I am your Lab/Tutorial Instructor, and I look forward to working with you this term.

Laboratory sessions are held on **alternate weeks** in Room N2089, located on the second floor of the Science Building.

Laboratory Schedule — First Lab Week (September 16)

Lab Section	Date	Day	Time
PC141–L01	September 22	Tuesday	2:30 pm – 4:20 pm
PC141–L02	September 22	Tuesday	4:30 pm – 6:20 pm

Lab Section	Date	Day	Time
PC141–L03	September 22	Tuesday	6:30 pm – 8:20 pm
PC141–L04	September 16	Wednesday	8:30 am – 10:20 am
PC141–L05	September 16	Wednesday	10:30 am – 12:20 pm
PC141–L06	September 16	Wednesday	12:30 pm – 2:20 pm
PC141–L07	September 16	Wednesday	2:30 pm – 4:20 pm
PC141–L08	September 16	Wednesday	4:30 pm – 6:20 pm
PC141–L09	September 16	Wednesday	6:30 pm – 8:20 pm
PC141–L10	September 17	Thursday	2:30 pm – 4:20 pm
PC141–L11	September 17	Thursday	4:30 pm – 6:20 pm

(Attend only your registered section.)

First Laboratory Session

The first lab will be:

- An introduction to the PC141 laboratory
- Exercise 1: Estimation and Bounding

This lab sets the foundation for experimental reasoning, approximation, and physical intuition that will be used throughout the course.

Preparation for the First Lab

Before attending your first lab session, please:

- Read Chapter 1 of the PC141 Lab Manual
  "Exercise on Estimation and Bounding"
- Download Chapter 1 from MyLearningSpace - Lab_Manual (lab1)
- Bring the required materials listed below

What to Bring to the First Lab

Please bring:

- A paper copy of Chapter 1
- A lab notebook
- A calculator

Accurate record-keeping of experimental methods and data is an essential part of science.

Your physics lab notebook should include:

- Experimental procedures
- Data and observations
- Notes from pre-lab introductions
- Sketches, estimates, assumptions, and reflections

Your notebook is a scientific record, similar in spirit to historical laboratory notebooks (e.g., Alexander Graham Bell's laboratory notes):

Contact Information

📧 Email: hshodiev@wlu.ca
(Use your myLaurier webmail account only)

Email guidelines:

- Include your course and lab section in the subject line
  (e.g., PC141 – Lab Section L02)
- Messages sent without course and lab section identification or outside MyLearningSpace may not receive a response
